

Extended Groupware Application (EGA)

Comfortable Operation

The groupios Extended Groupware Application (EGA) unifies email communication, calendars, task management, notes, and contact management into one platform.

"Made in Germany" and compliant with the GDPR, the EGA offers a powerful, secure, and flexibly customizable solution for professional collaboration in the company.

E-Mail & Communication

Work efficiently:

- Every user receives a personal inbox with intelligent folders and tag management.

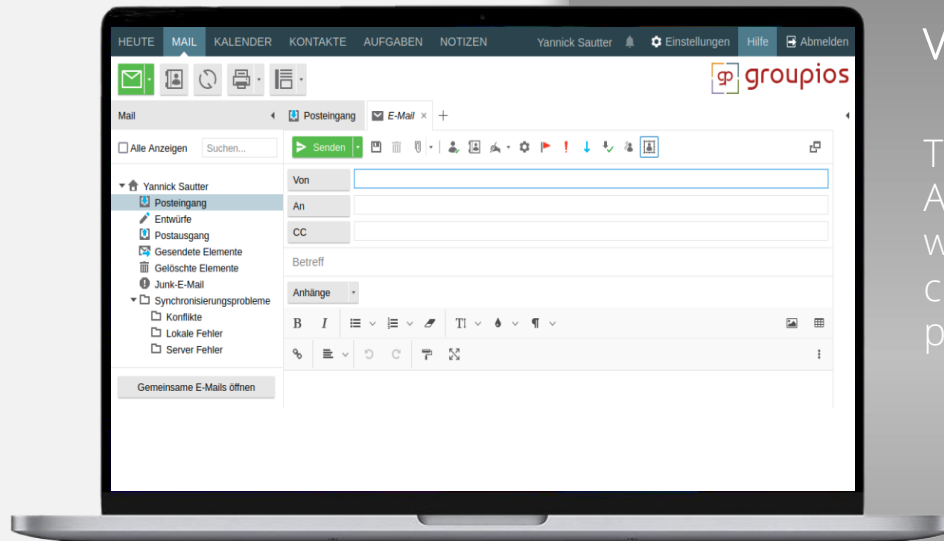

Increase productivity:

- Automatic out-of-office assistant, modern text editor, and rule-based processes ensure smooth communication.

Seamless integration:

- Central control and flexible permission management facilitate administration and compliance.

Extended Groupware Application (EGA)

Versatile Client Support

The groupios Extended Groupware Application (EGA) integrates easily with common email and groupware clients and supports all major platforms.

Your Advantages:

Flexibility:

- Compatible with established email clients and mobile devices.

Future-proof:

- Support for modern protocols such as MAPI-over-HTTP and ActiveSync.

Efficient Management:

- Central administration and quick user integration.

Supported Clients and Protocols

Thunderbird

- Recommended Protocol: ActiveSync (TbSync)

Microsoft Outlook (100% Native)

Recommended Setup:

- No plugins needed for Outlook usage
- Recommended Protocol:
- MAPI-over-HTTP

Android & iOS

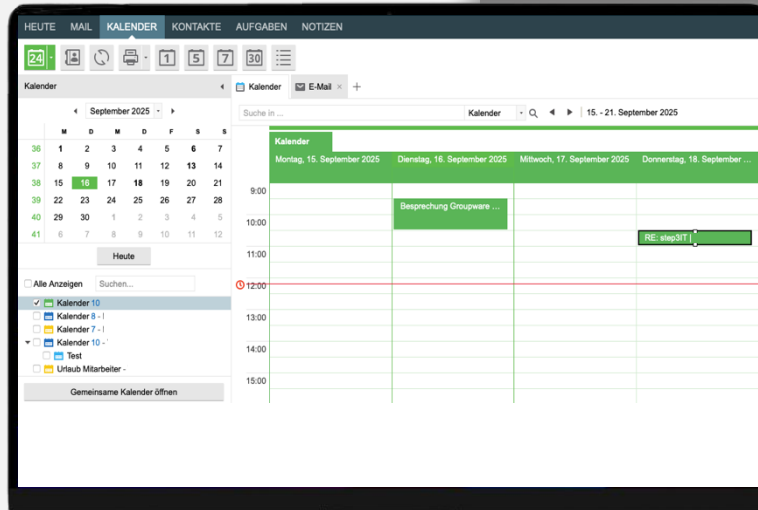

- Recommended Protocol: ActiveSync

Automatic Configuration

- Done through SRV record.
- Note: Based on the username, the correct configurations are loaded

Fallback for Sending

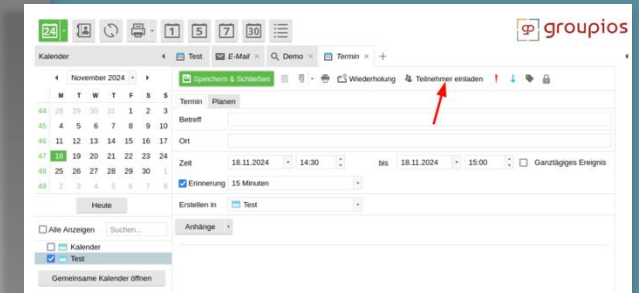

- If neither ActiveSync nor MAPI-over-HTTP is available, sending will automatically occur via SMTP

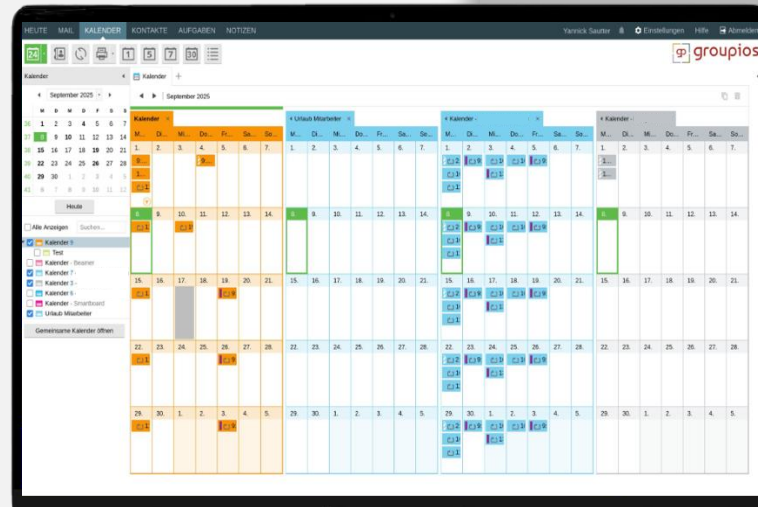

Calendar & Scheduling

Never miss appointments again:

- Personal and shared calendars enable transparent planning and quick coordination.

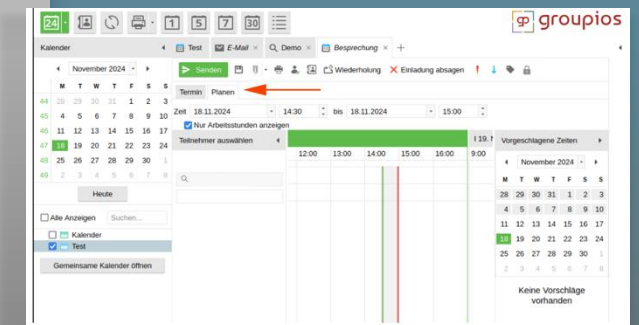

Request Appointment

Optimize team coordination:

- Appointments can be easily requested, scheduled, and shared – ideal for cross-project collaboration.

Plan the meeting

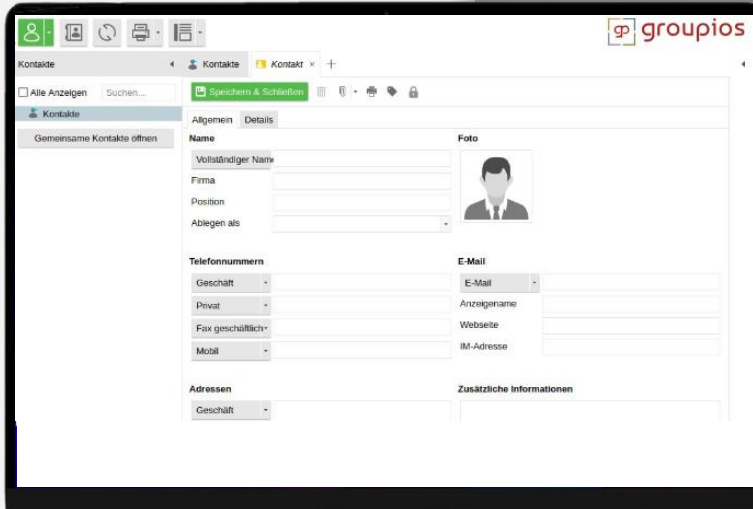

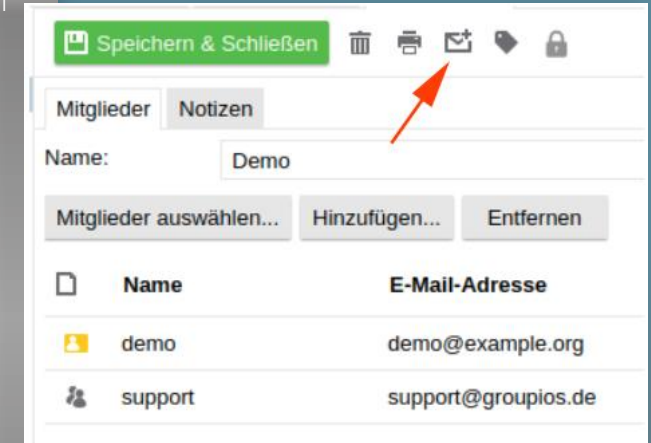

High availability:

- Clear presentation supports proactive resource planning.

Contact & Groups

Central contact management:

- Create and manage contacts directly from emails.

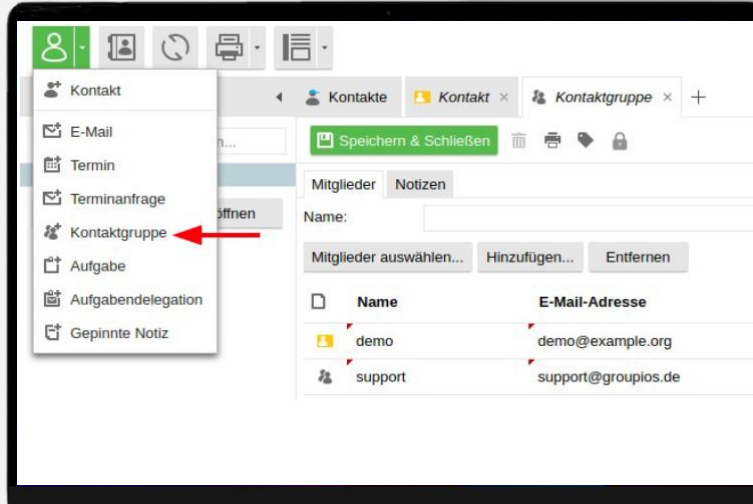

Name	E-Mail-Adresse
demo	demo@example.org
support	support@groupios.de

Efficient group communication:

- Create, manage, and address contact groups with just a few clicks.

Secure data storage:

- All contact data remains within a GDPR-compliant environment.

Email contact groups

Tasks & Notes

Tasks at a Glance:

- Easy creation of tasks with due dates, file attachments and email integration via drag & drop.

Don't forget anything:

- Notes can be pinned like digital sticky notes, color-coded and moved flexibly.

Transparent processes:

- Ideal for structured project and team collaboration.

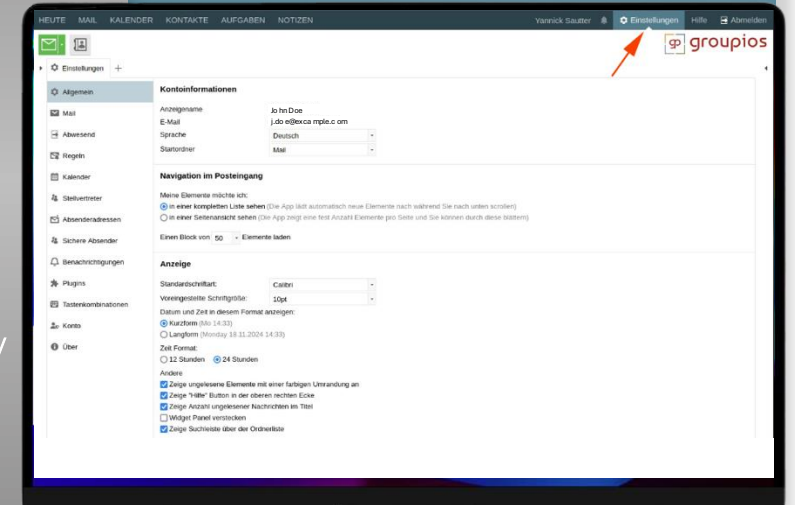

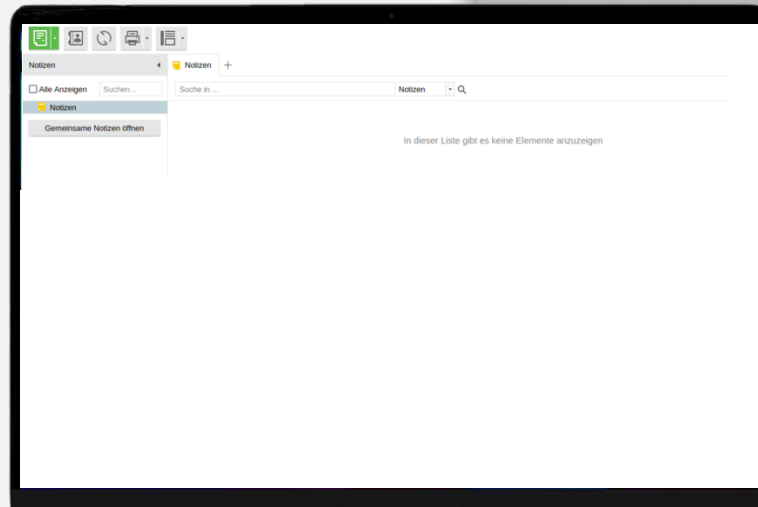

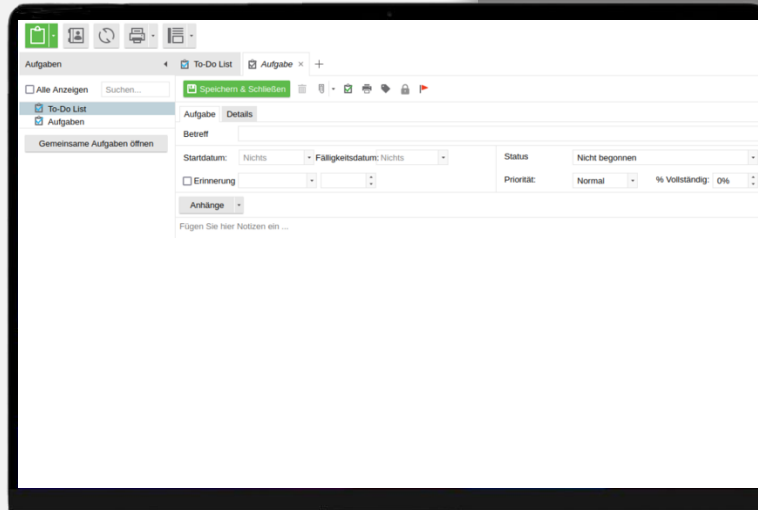

Individual Configuration

Central Control:

- Customize the groupware to fit your internal processes and policies.

Flexible Administration:

- Extensive settings for user rights, layouts
